

Cat House Plans by My Crappy House

Fabric Gable Pattern

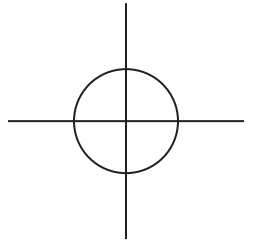

I used 1/2 yard of white, outdoor fabric to make my gables. Print and assemble the following pages using the register marks for the full size gable pattern.

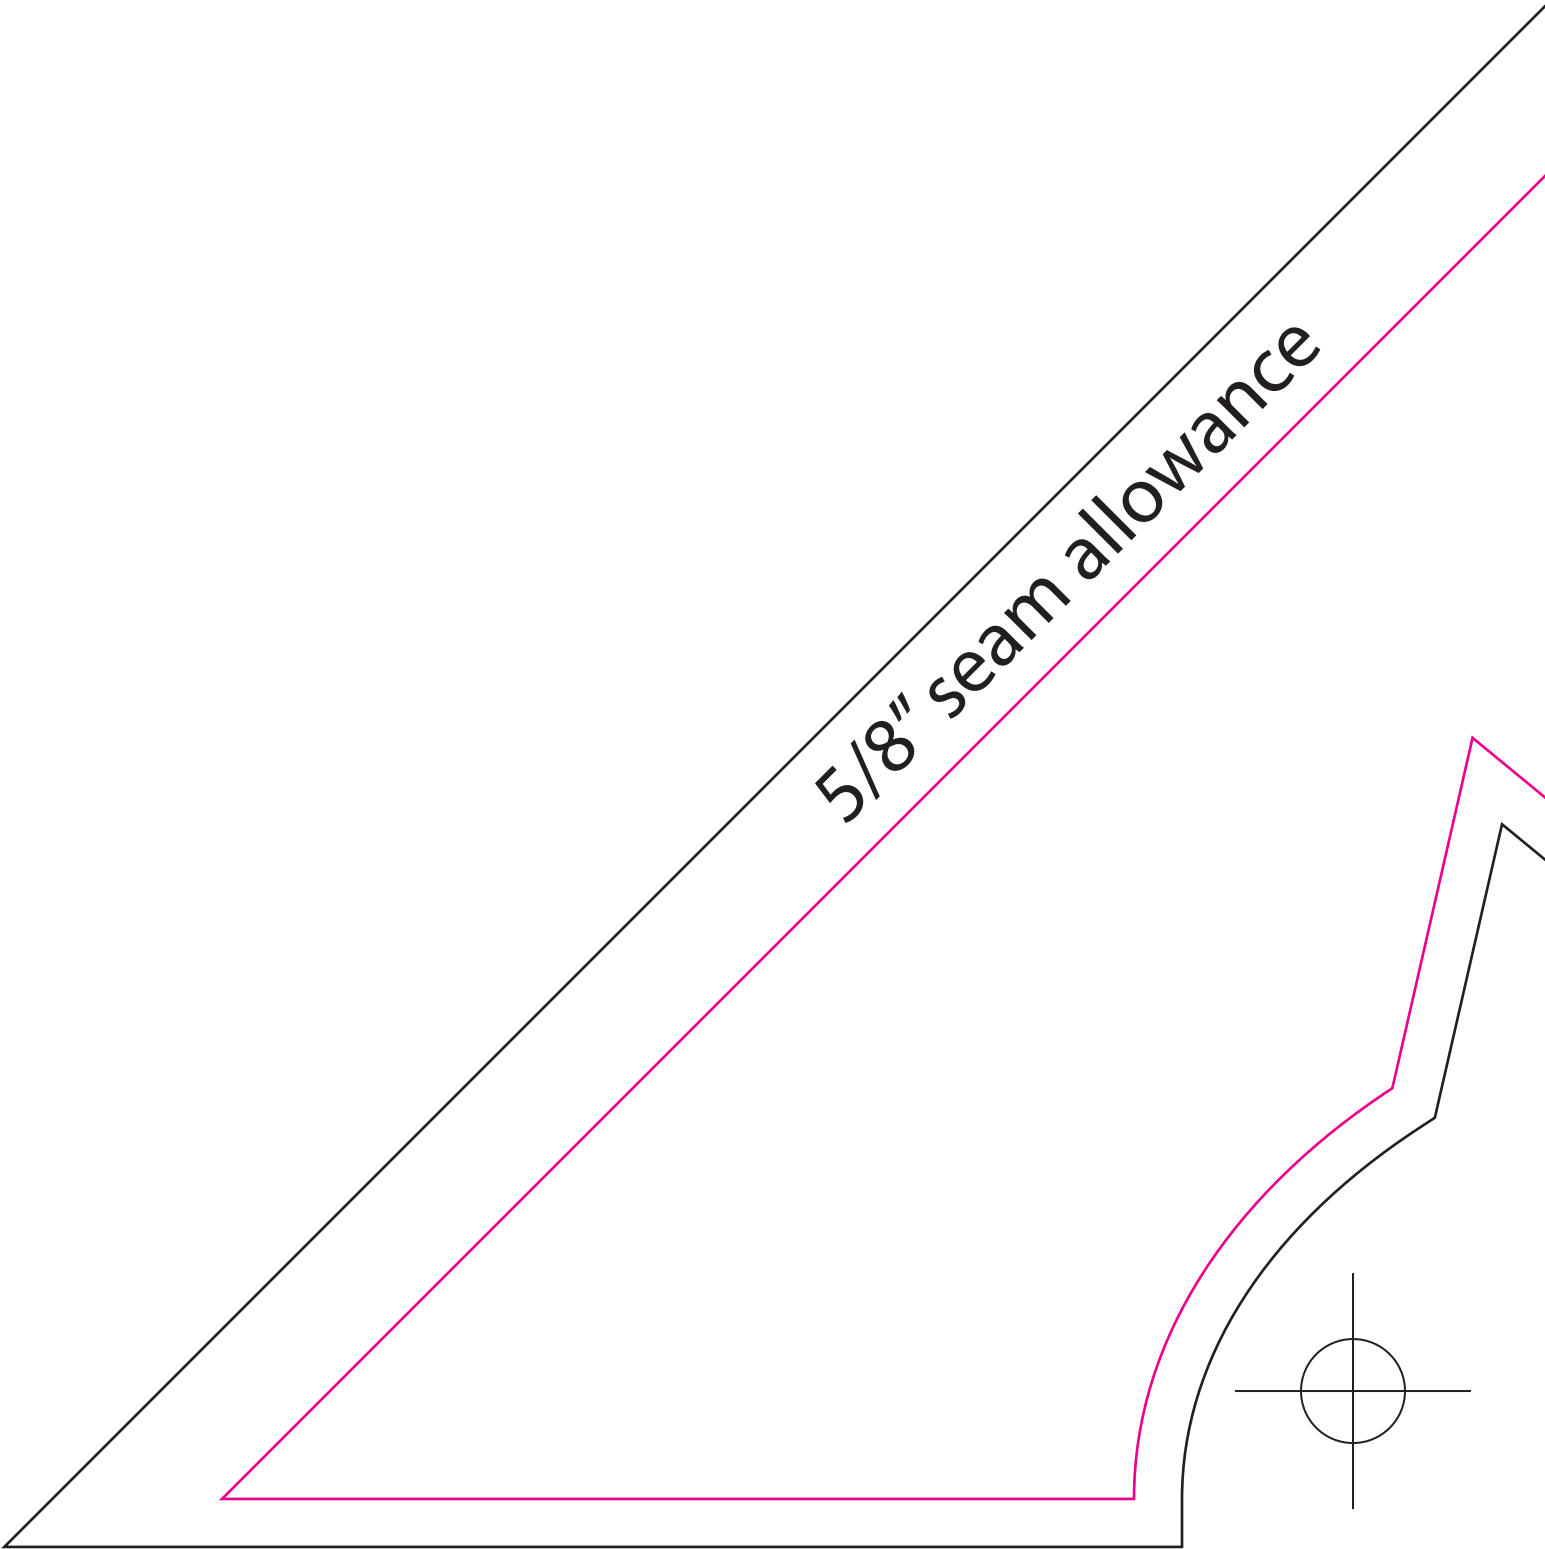

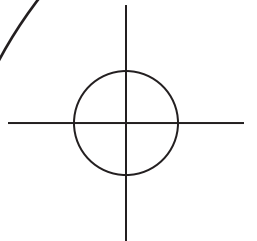

For the roof, I used one yard of outdoor fabric sewn in a basic rectangle with velcro tabs sewn inside. I did not make note of my measurements, but an experienced sewist can use the finished PVC frame as a guide for proper fitting.

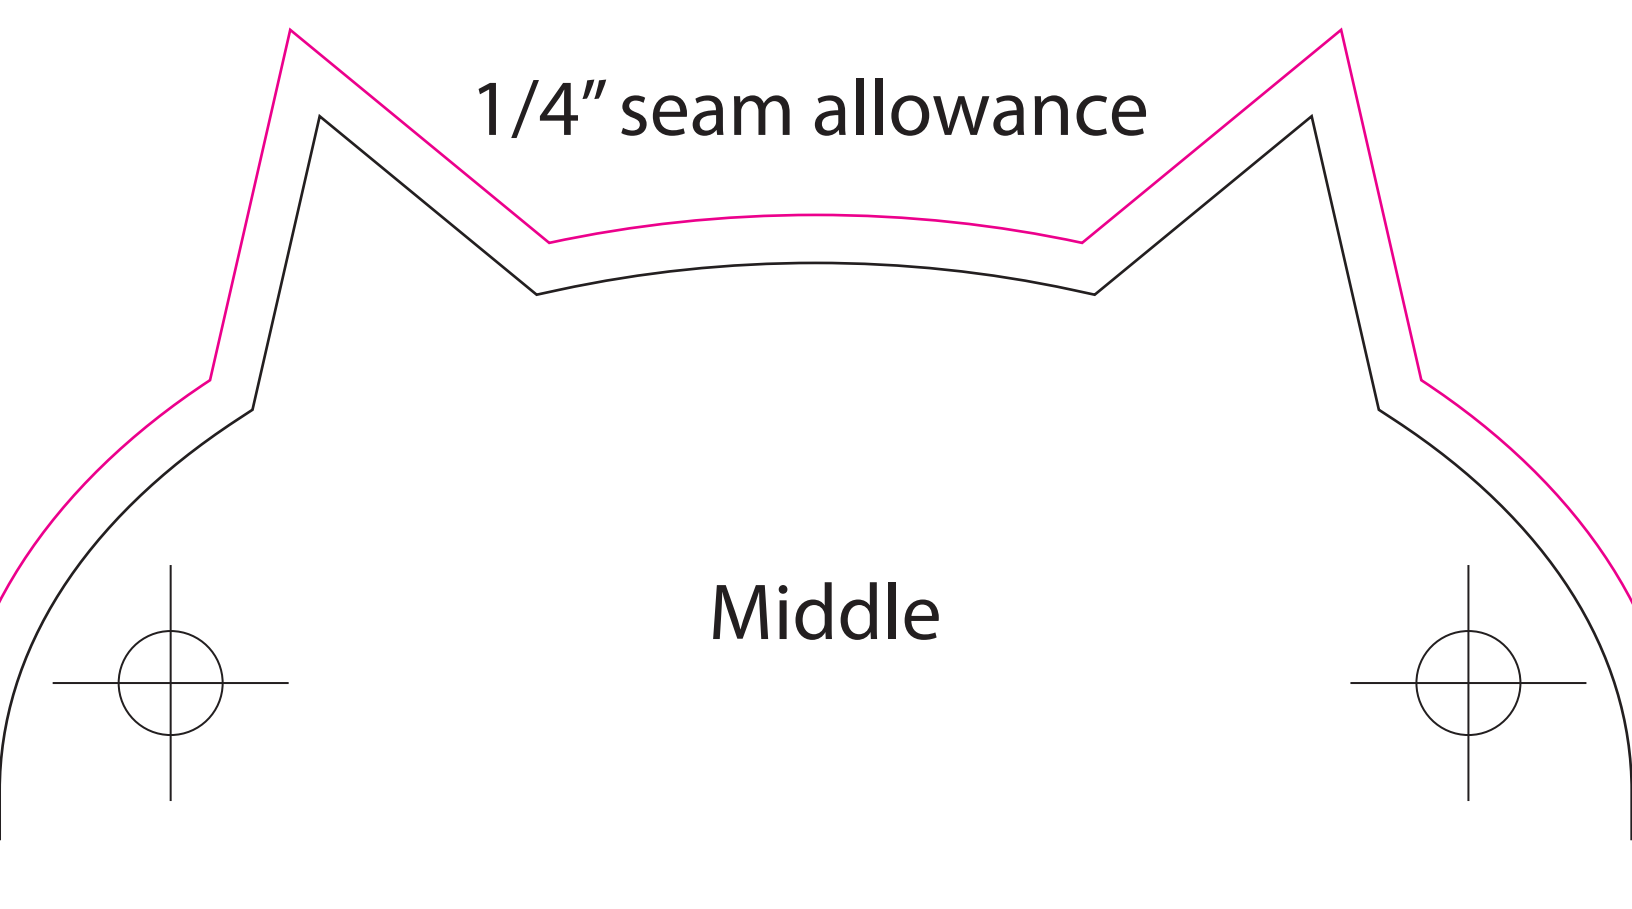

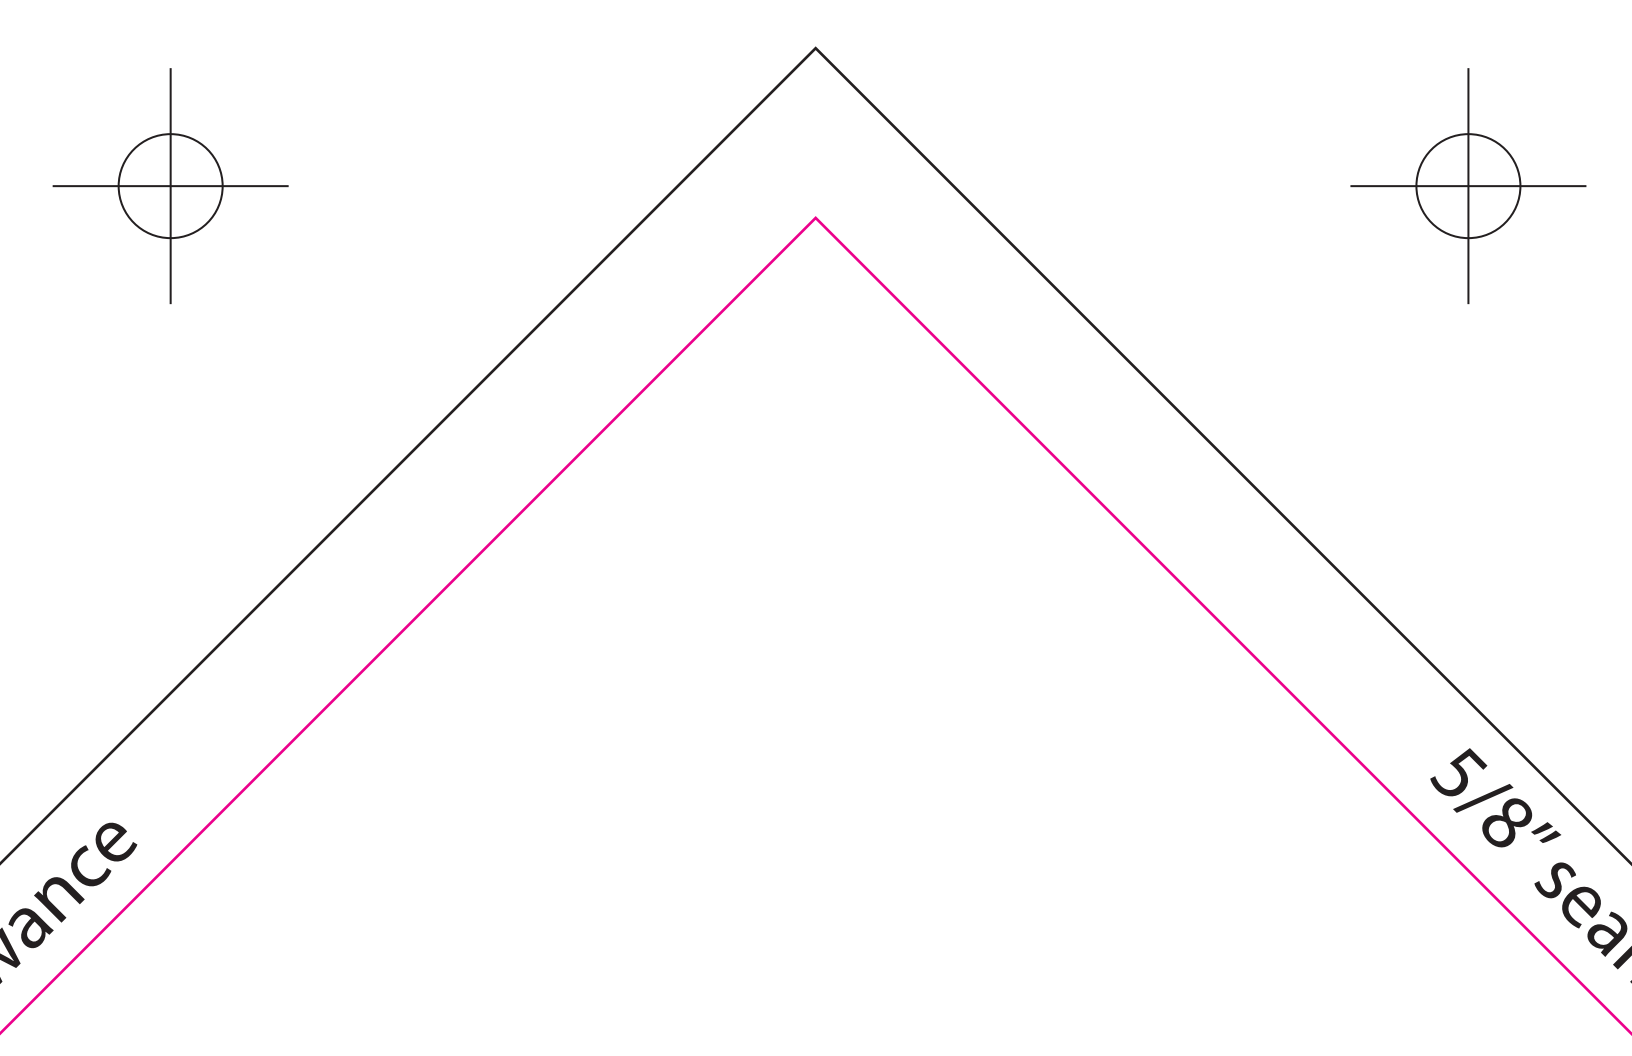

These plans were created to accompany a blog post at mycrappyhouse.com and are provided to you as a courtesy. You are responsible for checking the accuracy of all measurements before cutting your materials. I will not be held liable for errors resulting in damaged goods and I do not guarantee that your finished project will look as fantastic as mine. Use these plans at your own risk.
