

Cat House Plans by My Crappy House

PVC Roof Materials

P1 Long side $23'' + 1.5''$ (x3)

P2 Short side $8.25'' + 1.5''$ (x4)

Right Angle Corner (x4)

Right Angle 3-Way (x2)

I used $1/2''$ PVC. Note that $1/2''$ refers to the inside diameter of the pipe. Be sure the pipe and fittings you buy are labeled $1/2''$.

The length measurements above refer to the pipe that is showing. The extra $1.5''$ is so the pipe has $3/4''$ on each end to insert into the fittings.

These plans were created to accompany a blog post at mycrappyhouse.com and are provided to you as a courtesy. You are responsible for checking the accuracy of all measurements before cutting your materials. I will not be held liable for errors resulting in damaged goods and I do not guarantee that your finished project will look as fantastic as mine. Use these plans at your own risk.
